MCPS Staff FIRST AID, CPR, & AED Training Implementation Guide

“Every person seeking initial licensure or renewal of a license shall provide evidence of completion of certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators. The certification or training program shall (i) be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator... and (ii) include hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.” ~Virginia HB 1829 (9/1/2017)

In order to support MCPS staff licensure and certification requirements, MCPS offers First Aid/CPR/AED training through online training and hands-on skills practice. This training, offered through ProTrainings, is just one option for staff seeking certification in First Aid/CPR/AED.
