

Name: _____

Understanding Water Environments at the Izaak Walton Park

SOL 3.6

You will learn about different types of water environments at the Izaak Walton park and the different plants and animals that live in them.

1) What is an environment?

2) What is an ecosystem?

3) What is the water like in streams and rivers?

4) List two things that make the lake water ecosystem different from that of an ocean.

5) What kinds of plants and animals can you find around the pond? At the watershed?
