

Name: _____

Investigate the Structure of Soil

SOL 3.7

You will learn how soils are made up of different parts and layers.

1) What is soil made out of?

2) List the rock pieces found in soil, from smallest to largest.

3) Which layer of soil do plants grow in?

4) What are the three parts of soil that come from broken rocks?

5) What are three things that soil provides for plants?

6) What are some things that break down rocks into smaller and smaller pieces?
